ABAQUS Example Problems Manual - Civil Engineering Community ABAQUS Example Problems Manual: This volume contains more than 75 detailed examples designed to illustrate the approaches and decisions needed to perform meaningful linear and nonlinear analysis. Rescale | Abaqus Examples Abaqus Car Crash Example. This is an explicit benchmark problem on Abaqus - a car crashing into a rigid wall at 25mph. The complexity, speed and dynamic nature of the impact/contact conditions is a good example of Abaqus/explicit applications. The car is modeled with a von mises material with isotropic hardening. This model has 200,000+ elements.
